

## MY LEGS ARE MY LIFE.

My favorite legs are my running ones, I Love running. I also use them to ride on my electric scooter. My walking legs are great, I can walk fast in them and if i wear long trousers you wouldn't know i had false legs on . I can sit down and bend the knees so there like normal legs. My stubbies, are my house legs my slippers my playmate legs for when I want to be small. I use them on my skateboard or riding my hand bike , to play in the garden and climb up trees sometimes i take them to the park .

THANK YOU FOR SUPPORTING ME TO  
WALK, RUN, HOP, SKIP, AND JUMP.

# The Challenged Athlete Foundation October 2011 Ossur Run Clinic with Bob Gailey,

5 days of physical therapy it starts with a big playtime, a questions and answers panel, meet and greet get to know each other. Loads of different exercise, balance games .We learn ways of stepping, walking and running. We play loads of football, do drills and have fun after a lot of us go on to Campnolimits for their 5 day Camp of occupational therapy. Its like amputee village time, Its great I love my weeks of OT and PT residence

The challenged Athlete Catch a Rising Star Program is brilliant, I've been going 3 years now and have made lots of friends.

# THE NEVER SAY NEVER FOUNDATION APRIL 2011

I USE TO RUN WITH A HOP....

Thanks to Neversay Never Foundation, I don't hop anymore. I really love these guys, I did their Gait and Run Program. They helped me to run properly and win the medals for UK at the Endeavour Games in Oklahoma June 2011

# ENDEAVOUR GAMES 2011

450 Contestants from around the world

The Endeavour Games , June 2011

This is my greatest achievement , first in my category 20m 60m 100m 200m and brought home these medals for the UK

The Endeavour Games is held each year in Oklahoma , this is my second year attending, its the most fantastic event to be able to compete with other people like me , and I get to see my friends from camp and mobility clinics

# AMPUTEE COALITION OF AMERICA

25th Anniversary Conference  
Kansas City June 2011

The best thing about the Amputee Conference is meeting so many other amputees, being able to gain new skills through exchanging how to do things with each other, this boy gave my dad a great idea for a house skate board for me which is just an old board and cushion on 8 wheels it allows me to spin from side to side and in a circle when i am not wearing my legs i use this sometimes in the house and garden, its fantastic .

Bob Gailey's walking and running classes were great .  
I did all his classes and now I have learnt to use my hips  
and thighs properly

In the exhibitors hall, there were a thousand companies from all over the world showing different prosthetics and adaptive equipment . I went to all the hand stalls and booths and tried lots of different kinds of skins for fingers. I choose this companies skin and it really is like real life . I got my new hand in November 2011 it really makes me feel better now.

# HANGER PROSTHETICS & ORTHOTICS

APRIL 2011

I GET MY NEW WALKING LEGS  
THEY HAVE MADE THEM TALLER  
AS I HAVE GROWN SO I HAVE TO  
LEARN TO FEEL THEM AND  
BALANCE AGAIN.

THIS IS MR BALANCE MAN, WHEN  
I GET NEW LEGS HE HELPS ME TO  
STRAIGHTEN UP

That was a bit of a wobble , when I was made  
taller, took a few days to get my balance back .

# MY NEW HANDS NOVEMBER 2011

Hanger Prosthetics  
Sarasota Florida

Here's my new hand I like it...

My new hand is brilliant, when I am out shopping or at Church people don't stare at my hands anymore, because it's so lifelike you just wouldn't know it's a fake hand. I thought it was going to be real, but it's ok. It's still great because I don't feel so funny and odd out now in public.
